This report is governed by, and incorporated by reference, the Conditions of Testing as posted at the date of issuance of this report at <http://www.bv.com> and is intended for your exclusive use. Any copying or replication of this report by or for any other person or entity, or use of the name or trademark, is prohibited only with our prior written permission. This report only tests the findings noted with respect to the test sample identified herein. The results set forth in this report are not indicative or representative of the quality or characteristics of the EA item which a test sample was taken or any similar or identical product unless specifically and expressly noted. Our report includes all of the tests requested by you and the results thereof based upon the information that you provided to us. You have 90 days from the date of issuance of this report to notify us of any material error or omission caused by our negligence; provided, however, that such notice shall be in writing and shall specifically address the issue you wish to raise. A failure to raise such issue within the prescribed time shall constitute your irrevocable and exclusive acceptance of the completeness of this report, the truth and accuracy and the correctness of the report contents.

The sample(s) MEET the following requirement(s):

- The mechanical hazards requirements of ASTM F963-03, "Standard consumer safety specification for toy safety".
- The packaging and labeling requirements of the client's testing program.

Note: The received sample(s) contained scrapable surface coating material(s) of less than 10 milligrams by weight on one single sample, therefore such coating material(s) was not subject to the soluble heavy metals analysis of ASTM F963-03, "Standard consumer safety specification on toy safety", Section 4.3.5.2, as specified in Section 8.3.3.1(2).
